

# Video Editor

## Job Description

Basin PBS serves the Permian Basin with programming and services of the highest quality. As a trusted, community-licensed television station/non-profit organization, Basin PBS empowers West Texans to achieve their potential.

**Position Summary:** Basin PBS (KPBT) is seeking an experienced Video Editor and Videographer. This position will primarily be focused on editing TV content produced by Basin PBS, other duties will be assigned depending on production needs. This position will work closely with our production manager, director, producers, and many others to advance our mission through our locally produced content. This position requires someone able to edit long-format media, keep tight deadlines, and be a team player.

### Responsibilities:

- Work closely with the production manager and producer in the post-production of content produced by Basin PBS.
- Responsible for file management, ingestion, archival, and delivery.
- Assist with on-location and in-studio filming.
- Assist in the building of filming sets when needed.
- Assist in the development of our camera operator team.

### Qualifications:

- Minimum of 3 years of experience in video editing using Adobe products.
- Working knowledge of Adobe Premiere, After Effects, Media Encoder, and Photoshop.
- High level of computer skills, with a deep understanding of file organization/management.
- Previous experience operating video cameras.
- Creative and collaborative mindset.
- Desire to grow and learn professionally.
- Experience building animations in After Effects is a plus.

Basin PBS is proud of the team we've created. If you are seeking a supportive atmosphere, love collaborating with others, and believe trust is important in your career, we want to talk to you!

Please email your resume to Laura Wolf at [lwolf@basinpbs.org](mailto:lwolf@basinpbs.org). No phone calls please.

Basin PBS is an equal opportunity employer.
